The AIBO® Entertainment Robot features and mode map

Station mode
- When the AIBO robot is in Autonomous mode, all the activities and settings shown below are possible. When the AIBO robot is in Station mode (when it is awake), all the activities and settings shown below except those marked with an asterisk (*) are possible.

Remote Control mode
- When the AIBO robot is being controlled wirelessly by the Remote PC, it moves based on the commands sent from the Remote PC.

Game mode
- The AIBO robot goes into Game mode when you show the "Game Mode (L)" card in Station mode, and the game begins right away.

Record mode
- You can record a message to voice tag into the AIBO® Entertainment Robot (TERS-7M3).

Custom mode
- You can set up the following: Game allocation, Custom data group allocation, Autonomous sounds.

Setup mode
- The AIBO robot mounts the Energy Station (Autonomous Monitor mode*1) when it is charged, and then it returns to the Autonomous mode.

Self-charging setup
- You can set up the following: Energy Station demand, Self-charging ON/OFF.

Even more fun! (Dancer Function)
- Play music for the AIBO robot, and it performs various dances along with the rhythm and volume. Play your favorite music, and watch it dance happily.

Allocate a custom data group
- In Custom mode, the data can be switched among up to three types of custom data.

Even more fun! (Dancer Function)
- The mode indicators turn each of the 6 colors in order. This continues throughout the dance.

Allocate a game
- In Game mode, you can specify and change up to three types of custom data.

Even more fun! (Dancer Function)
- The AIBO robot begins dancing while playing the rhythm.

Custom data setup
- You can select the following: Game allocation, Custom data group allocation, Autonomous sounds.

Clock setup
- Wake-up time for the AIBO robot, Hourly alert ON/OFF.

Even more fun! (Dancer Function)
- Play your favorite music.

Set autonomous sounds
- The AIBO robot communicates in certain conditions with sounds or words. You can customize by setting your own sound.

Even more fun! (Dancer Function)
- Touch the sensor to turn off the Dancer Function.

Even more fun! (Dancer Function)
- Touch the head sensor for at least 3 seconds, or touch the sensor while keeping the rhythm.

Even more fun! (Dancer Function)
- You can also say "Dance to the music" or "Groove to the music".

Even more fun! (Dancer Function)
- Page 91

Pick up card
- When you show the AIBO robot the "Start AIBO Entertainment Player" card while keeping the rhythm, the AIBO robot starts playing the music.

Set autonomous sounds
- You can set up the following: Alarm Clock Set Up, Hourly alert ON/OFF, Bedtime for the AIBO robot.

Even more fun! (Dancer Function)
- The AIBO robot falls asleep. If you remove the battery or "Memory Stick" media, AIBO robot was pressed to turn the AIBO robot off, it returns to Autonomous mode.

Even more fun! (Dancer Function)
- You can set up the following: Hourly alert ON/OFF, Bedtime for the AIBO robot.
