

**WORKPLAN** for Machine Learning and Adaptation of Domain Models to Support Real Time Planning in Autonomous Systems

- KEY
- “RH” – research at Huddersfield, total duration 4 years, “RE” – research at Edinburgh, total duration 3 years.
  - RH and RE will consist of a major (continuous arrow) and a minor (dashed arrow) WP task during each period, approx 2:1 weight.
  - Total Research Assistant resource for each WP is given in person months below the WP number (using the 2:1 major/minor split).
  - MX – milestone X with associated project meetings and deliverables. M0 is the kick-off meeting.
