

Virtual Collaboration for Lotus Sametime *Overview presentation* 

Technical consulting | Training and certification | Premium Support services

# Immersive experiences bring to users

- The Sense of Self
- **The Death of Distance**
- **The Power of Presence**
- **The Sense of Space**
- The Capability to Co-create
- **The Pervasiveness of Practice**
- **The Enrichment of Experience**

### How do virtual worlds work -- in 20 seconds or less?

Avatar - an avatar is a representative of you in a virtual world.

Avatars can meet and interact with other avatars in a 3D environment

# Business value of virtual world platforms

Greater leverage of key experts across an organization

Faster response to organization and client issues

Increased Efficiency

Improved Access

Enhanced Learning and Collaboration

Decreased Cost

#### Realtime collaboration on tasks

Enables connection of globally dispersed teams

# Sametime 3D- A new way to collaborate

#### **Business Value:**

Supports enhanced collaboration activities using virtual worlds, integrated with Lotus Sametime 8.01(or later)

#### **Business Venues:**

- Boardroom
- Collaboration space
- Theater

# **Platform features:**

- Reusable meeting spaces
- In-world tools to support virtual meeting activities
- Optional spatial voiceAccess control, integration with Domino User directory or Enterprise LDAP
- Web Portal with User and Administrator roles

Meetings are created and accessed using the SameTime plug-in or a web user interface

 Select participants via group chat and select 3D meetings

- Choose existing meeting or from meeting space templates (Boardroom, Collaboration area, Theater)
- Send invitation
- User authentication (against LDAP) to confirm identity prior to entering virtual meeting
