

Vue

Virtual University of Edinburgh

Vue is a virtual educational and research institute bringing together all those interested in the use of virtual worlds for teaching, research and outreach related to the University of Edinburgh.

Benefits

The Virtual University of Edinburgh is inherently multi-disciplinary. It connects people from across the University and unites groups by enabling them to collaborate from any location over a number of virtual world platforms.

Edinburgh uses virtual world applications for use in teaching, research, commercialisation and outreach activities.
